

## To Whom It May Concern

### LETTER OF RECOMMENDATION

Date: May 29, 2025

To Whom It May Concern,

It is with great pleasure that I write this letter of recommendation for Mr. Aditya Pandey, who has been serving as an AI Developer Intern at Intellectus AI Labs since March 8, 2025. Aditya is a student at Dayananda Sagar University and has demonstrated passion for AI technologies throughout the course of his internship.

During his time with us, Aditya has made contributions across several key areas in AI development, including:

- **Data Preparation & Preprocessing:** He has curated and transforming raw data into model-ready datasets.
- **LLM Fine-Tuning:** He contributed to fine-tuning large language models (LLMs) on structured and unstructured data to adapt them to specific domain problems.
- **Model Evaluation & Analysis:** Aditya has taken part in evaluating the performance, fairness, and limitations of various models.

Aditya has deep interest in AI Agentic Workflows and Multi-Agent Systems. He has worked extensively with CrewAI, one of the most advanced frameworks for building collaborative, autonomous AI agents. His understanding of Agentic AI architectures is not only theoretical but also practical—he has designed and implemented multi-agent workflows that simulate real-world task decomposition, delegation, and execution.

Aditya's has built agent pipelines that involve planning, memory management, inter-agent communication, and asynchronous coordination. His contributions have helped several of our experimental initiatives involving LLM-based agents for automation.

He possesses good communication skills, a collaborative mindset, and a hunger to learn continuously. His proactive approach and curiosity toward emerging technologies like Agentic AI make him a valuable asset in any AI-driven project or research endeavor.

I recommend Mr. Aditya Pandey for any role or academic opportunity that seeks a talented individual in the fields of Artificial Intelligence, LLMs, or Multi-Agent Systems.

Sincerely,

,

Snehanshu M  
Founder, Intellectus AI Labs
